WORK EXPERIENCE

Web Development Intern
Vulcantech Solutions
06/2023 - 07/2023
Developed a virtual admissions assistant chatbot utilizing Natural Language Processing (NLP) to comprehend prospective student inquiries in a conversational format. By accessing a college database, the chatbot provides informative responses regarding admissions, academic programs, and campus life, enhancing the user experience.

Web Development Intern (Virtual)
Coderscave
09/2023 - 10/2023
A virtual internship provided the opportunity to hone front-end development skills by building a Netflix clone. HTML, CSS, and JavaScript were utilized to create a user-friendly and visually appealing interface with core streaming functionalities. Essential features like login, search, and video playback were implemented. This project solidified foundational knowledge and allowed exploration of advanced concepts like responsive design and user interaction.

SKILLS

C | Python | HTML | Javascript
Java | MS Office | SQL
Operating Systems | CSS
Problem Solving | Communication Skills
Computer Networking

ACHIEVEMENTS

Actively participated in organizational and technical events in colleges and school

During my virtual internship, I took on various responsibilities that exposed me to real-world applications of my field, enabling me to expand my knowledge significantly and earned valuable certificates.
